THE STOCK MARKET.

WALL STREET, TUESDAY, Sept. 2-6 P. M.

THE FOREIGN MARKET. The advices from London to-day were devoid of general interest. Consols were weak and lower, and United States securities quiet and steady, without material change. Eric declined at the close to 46%. The quotations are as follows:-Consols for money, 92¼ a 92¾; consols for account, 92% a 92%; five twenty bonds of 1865 (old), 95% a 95%; five-twenty bonds of 1867, 95% a 95%; tenforty bonds, 90% a 90%; new fives, 91 a 91%; Erie Railway shares, 46%; Illinois Central shares, 84 a 86; New French loan, 7% per cent premium. The rate of discount in the open market for three months bills was 3 3-16 per cent. The demand for discounts in the open market was heavy. The demand for discounts at the Bank of Engiand was light. French rentes in Paris declined from 58.20 to 58 at the close.

EXPORTS. The total exports of produce for the week ending to-day amounted to \$5,420,644 mixed values, which is an increase over last week of \$139,185. The exports for the corresponding period of last year were \$4,695,445, and for 1871 \$3,955,742. The total exports since January 1 this year are \$190,229,227, against \$147,188,685 last year, and \$153,960,760 in 1871.

MONEY FIRM.

In the early part of the day call loans were quoted at 5 a 6 per cent on stock collateral and 4 a on government bonds. Later, however, the price hardened to 7 per cent, which was the rate at the close of the market. Discounts of prime paper at short date are quoted at 7 per cent and acceptances of four and six months at 8 a 10 per cent. Foreign exchange was dull and lower, as a sequence of the loaning value of gold use in other channels than the purchase of foreign bills. Rates were twice reduced 60 day, an eighth each time, a good many bills being apparently sold to obtain gold in an ticipation of the possible movements of the latter. We quote prime sixty day bills at 107% to 107% and sight at 108% to 108%, with concessions on bills in second hands of % per cent. There is an active demand for currency for the West; but it is a favorable feature that the new five per cent bonds are largely bought by Western banks, the purchases being for the purpose of making a basis whereon they may enlarge their circulation in accordance with the act providing for the issue of \$54,000,000 iditional national bank notes. The right of the West exclusively to this new issue expires about the middle of this month, after which it may also be enjoyed by the East.

GOLD STRONGER -115% & 116%.

Each succeeding day demonstrates the power that has been concentrated in gold, and the ability of those who hold this power to use it according to keynote of the situation is undoubtedly with the master spirits who have been bold enough to do what ought to have been done by the government-accumulate; and in this accumulation they are practically in a position to dictate terms. Thus far no especial harm has been done to either the merchant or the importer. In fact, the latter have rather invited a SPECULATION IN GOLD

by borrowing against the probability of an advance in the premium, and thus have absolutely created a short interest that has become one of the objective points of the present combination. What may be the upshot few can tell: but one thing is certain the whole moral force of the community is opposed to a repetition of the events of the famous Black Friday. Nor is the "street" in that mental condition which will yield again as it did then to the wild, magnetic influences of an hour. The price may ascend gradually. It cannot be forced unrea-

LARGE INTEREST may be demanded for the use of gold, and much good fortune pour into the coffers of those who may own the same; but beyond this we confess mability to discover any cause for the exciting and sensational articles that have recently appeared in the newspapers of the day. Public sentiment is a powerful check, and Secretary Richardson can add to its weight the cogent force of twenty millions of "phantom" golden dollars with the scratch of his pen. In this connection it may not be uninteresting to moralists on the subject of "corners," present and prospective, to know that even at moment one exists, which is making its influence felt, not on speculators alone, but on every man and woman, rich and poor, in this land. Coffee, in a little more than two weeks has been forced from 17 to 22 and 24 cents per pound in gold-a higher price, we are told, han ever was paid for it in this country, even during the stormiest times of war, when the premium on gold was at its most magnificent figure. This "household blessing" is under the control, we are informed, of one man, who may advance its commercial value to any figure he pleases as a limit. But of course he is only dealing with "merchandise." and will not, therefore, be blamed for advancing its price even seven per cent in "gold."

The rates paid for borrowing to-day 31-6 per cent to flat, and for carrying 2 to 3 per Gold loans on time were firm at % to 1 per cent for use for thirty days, 1% to 1% for sixty days, 1% to 1% for ninety days, 1% to 1% for four months and all the year, and 1% to 1% for six

 THE UNITED STATES TREASURY.

Despatches from Washington to-lay confirm what has already been published in the Herald condition of affairs may be briefly stated as follows:—The Secretary of the Treasury on the 6th of the Secretary of the Treasury of the Secretary of the Secreta concerning the Geneva award of \$1,150,000. It now

June issued a call for the redemption of a certain series of five-twenty bonds covering the amount of the award, and the British government contracted with the Syndicate to discharge the treaty bligation through the medium of these securities. This was done. A portion of the bonds were surendered to the Treasury and gold certificates issued therefor and transferred to the custody of the British Consul in this city, to be delivered with other representatives of specie (their value covering the entire award) by the British Minister to the Secretary of State and by him transferred to the Treasury as so much cash. It is said that this formal transaction will occur on Saturday, the 6th of the present month.

The payments made from the Treasury by warrants during August, exclusive of those made on account of interest or principal of the public debt,

were as follows:-

A special despatch from Washington states that Secretary Richardson has determined to recommend to Congress in his first report the repeal of the law allowing the Secretary of the Treasury to reissue at his discretion any part of the forty-lour millions legal tender reserve. The receipts from customs in New York to-day were \$628,000. The internal revenue receipts at Washington were \$208,189. The Assistant Treasurer paid out \$80,000 on account of interest and \$5,000 in redemption of

five-twenty bonds.

Until about noon the stock market was dull, business evidently being checked by an undefined suspicion of something to occur. Perhaps the various rumors connected with the forgeries of bonds and legal tenders exerted some influence, or, it may be, that the uncertainty which attaches to values while the gold speculation is pending caused restraint. Whatever may have been the occasion of it. however, the leeling did not last long, and after twelve o'clock matters began to mend, Western Union taking the lead and carrying with it, so to speak, the rest of the market. In the early part of the day the decline was from % to % per cent. Subsequently there was an advance of % to 1% per cent. Western Union opened

but at the close sold at 43%. Erie opened at 50%, but in the face of the dividends declared on both preferred and common stock at the meeting of the pard of Direction to-day (the proceedings will be found elsewhere), receded to 58%, with a close of only % per cent better. Panama opened at 117, and sold at 116% a 116%, 117 a 117% a 117% a 117% a 117. Wabash advanced from 693 to 70, receded to 693 a 69, but closed at 70. Seven hundred shares were bought in under the rule. It is said that the parties in control own about three-fourths of the stock. COMMERCIAL REPORT.

Cotton, Flour, Wheat and Corn Higher-Pork Firmer-Lard Higher-Groceries Firm-Naval Stores Quiet-Petroleum Spot Firm-"Futures" Easier-Freights Firm-Iron Higher.

TUESDAY, Sept. 2-6 P. M. There was continued activity in most departments of trade to-day, and a healthy tone pervaded the merchandise markets generally. The movement in breadsturs continued active, and the transactions were large for future delivery at the advanced prices quoted in yesterday's review. Very heavy sales to arrive have been made lately both for September and October delivery, besides which it is understood that considerable purchases have been made in Chicago direct by exporters here for fall delivery. Corn was again higher, under an active demand on the improvement, the market closing buoyant. Sats were in light supply and stronger in consequence, the demand being only moderate. There was but little movement in provisions, though there was a firmer feeling in the market generally. Cotton again advanced under a good inquiry from spinners and speculators.
The movement in coffee was retarded by the scarcity of
Rio and Santos invoices.

Ashas.—There was only a moderate jobbing demand
for pots at 28 25. Pearls are insective and nominal.

Canous were in moderate jobbing request at steady
prices.

prices.

Corron.—The demand for spot cotton was fairly active for spinning purposes, and the market ruled decidedly firmer, closing with a continued upward ruled to quotations annexed. For tuture delivertes the market opened strong and an advance of \$\frac{1}{2}\cdot \text{a}\$ to the market opened strong and an advance of \$\frac{1}{2}\cdot \text{a}\$ to the market established on all months. This improvement was offered at 1855c. (sales at 18 11-16c.); October was offered at 1855c. (sales at 18 11-16c.); October was offered at 18c. November at 1755c. We quote:—

but without business. The Creek advices were not much changed. At Philadelphia the market was dull and heavy, with spot quoted at about 16c. a 165c. and rutures at 155c. Provisions.—Receipts—2,728 bbls. pork, 29 packages cut meats and 407 packages lard. The pork market was friner. We note sales of 250 bbls. cash, at \$17 50; 500 bbls. Cash, and Yesterday the first of the new crop of Carolina rice was brought to this city by the steamer Champion from Charleston. The shipment was made to Dan Talmage's Sons, of this city, by their house at Charleston. Owing to heavy rains early in the season, the growth of rice this year was somewhat retarded, and the arrival is two

weeks later than that last season. From the present out-look, however, an increase is predicted in the weld of the growing crop of 7 a 8 per cent as compared with last year's crop. Estimates made now as to the extent of the crop have but little value, however, as it will be remem-bered that during the harvest, which takes place this month, is the most critical time for the crop, owing to the hability of sudden and heavy gales visiting the coast at this period of the year.

REAL ESTATE MATTERS.

Large Attendance on 'Change-Sales and Adjournments-Commencement of Fall Judging from the large attendance at the Ex-

change yesterday, it seemed patent to everybody that the season for summer excursionists is pretty well over, and the tanned complexion of the habitues of the city's real estate mart bore full indications of rural healthfulness. The assembled votaries on 'Change looked as if they had come to settle down for an active fail campaign and earnestly "meant business" every time. The offerings were not much. Mr. James M. Miller sold two parcels of property, consist-ing of a house and lot on Madison street (exact location not given), 25x78.6, by order of W. H. Kelley, referee, to Catherine Ann Vandewater, for \$3,850; also by order of Thomas H. Landon, referee, the premises located on the northerly side of Tenth street, 170.5 feet easterly from avenue A, to H. Weller, for \$18,300. These were all the sales which were held, although another very extensive one had been advertised. This was no less than the Knickerbocker Hotel property, located on Fifth avenue, Fifty-cighth and Fitty-ninth streets. Four times had this sale been adjourned, and was to have taken place yesterday sure. The farce of putting up the property by the auctioneer, Mr. R. V. Harnett, was gone through with in good style, and ended by adjourning the sale until September. 25, when, in all human probability, anotice will be given of a further adjournment. The expense thus rolled up on this hi-starred property is enormous, but the fortunes of legal controversies are like those of war, mighty uncertain; and it may be possible that, after the lawyers have wrangled enough and made a young fortune out of this estate, an amicable settlement will be made between the mortgagors and mortgagees, and the extra cost of the sait saddled on a future occupant of the premises.

The first large sale of Westchester property this fall was held yesterday, by Mr. Jere. Johnson, Jr. at Boscobel, consisting of 200 villa sites. Ten carloads of excursionists from this city attended the rural districts. The sale was in every respect a success, but owing to the late hour of its termination we cannot give the details this morning. On the 9th inst. a grand sale of 448 lots will be held at Bay Side, L. L. adjoining Little Nock Bay and the famous residences of ex-Mayors Mickle and Lawrence. Messrs. Stratton and Storm, the owners of this property, have beautifled the land by laying out a park of eight acres, through which serpentine walks wind their way and clusters of large and umbrageous trees embower the various streets and avenues.

The land has been laid out in city lots. 25x100. and the streets are ready for grading, carbing a H. Kelley, referee, to Catherine Ann Vandewater, for \$3,850; also by order of Thomas H. Landon, ref-

ing their mains to the end of this property.

of city and suburban property, in large numbers, are pending, of which several will be consummated in the course of this week. Thus it may be augured that the fail trade has at last shown signs of commencement, and will in a few days more be in fail operation on a more active scale than ever.

BROOKLYN POSTAL CONSOLIDATION.

The Post office Department has determined to nsolidate the Post Offices of Brooklyn, Williams burg and Greenpoint, and inaugurate the free de-livery of letters and periodicals. The present Postmaster of Brooklyn, ex-Mayor Samuel Buoth, has tendered his resignation. The salary is \$4,000 per annum, out of which a political assessment of \$1,000 per year is deducted. Mr. Booth will remain to charge of the office, however, until the new system has been put in working order. There are thirteet clerks and fifty-two letter carriers at present em-ployed in the Brooklyn Post Canal.
